WAVE and VALLEY TROUGHS

DIORE
SURFACES

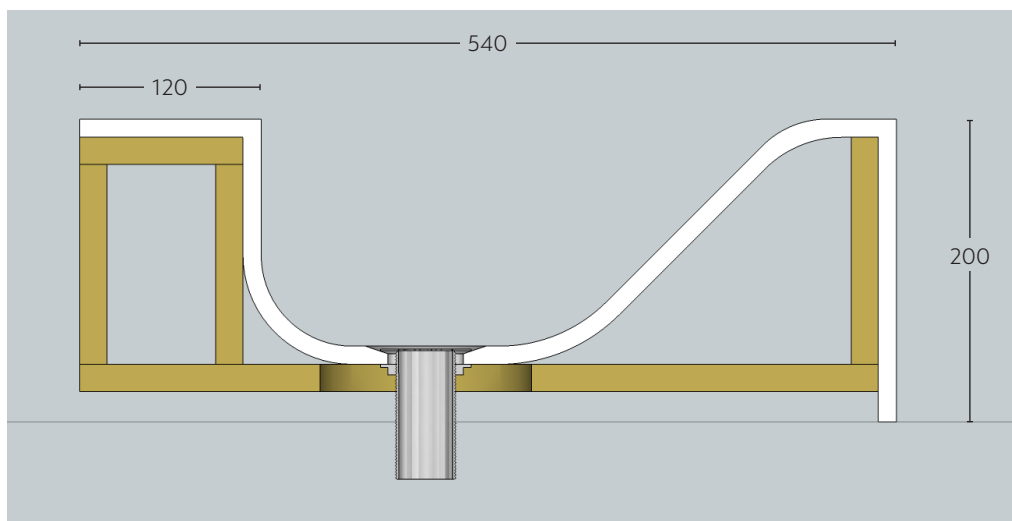

wave trough

thermoformed to
create a hygienic,
smooth, curved
profile

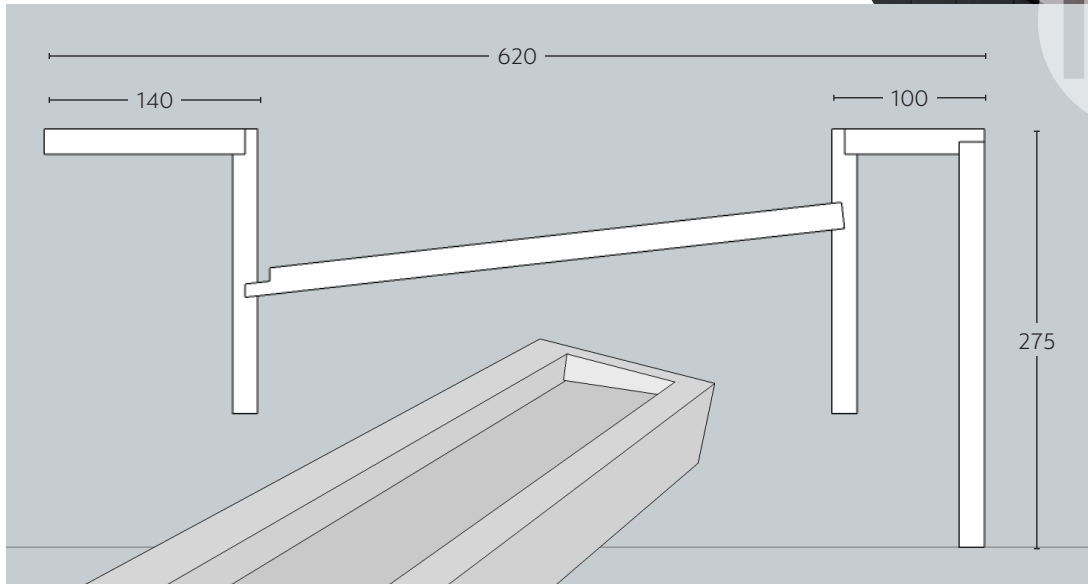

Wave Trough Section

| | |
|------------|-------|
| Depth | 540mm |
| Downturn | 200mm |
| Back Shelf | 120mm |
| Side Edges | 24mm |

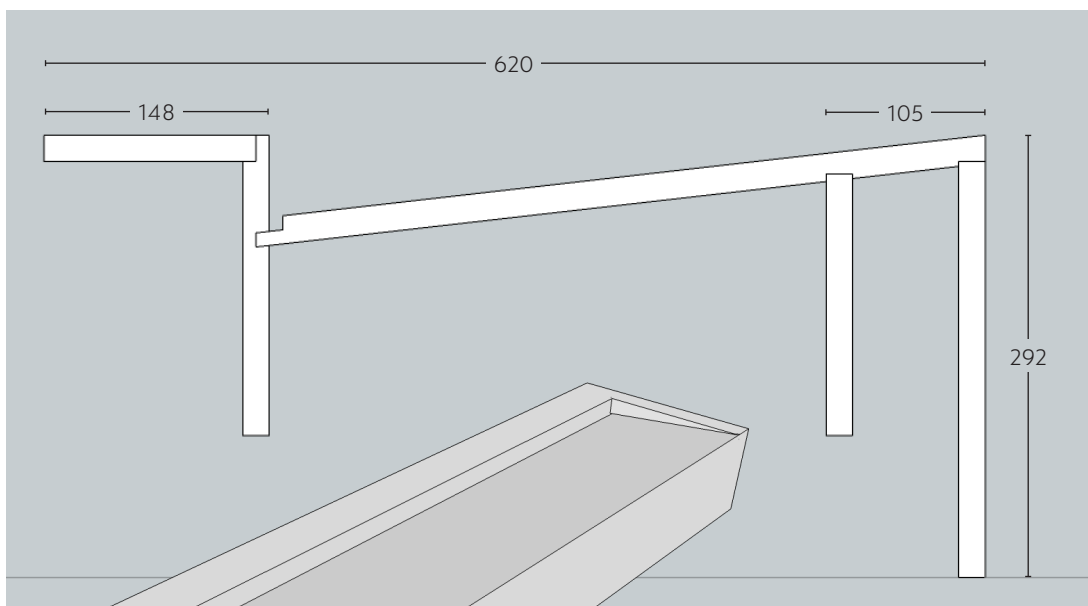

valley trough

designed to be both practical
and visually stunning

Valley Trough Section

| | |
|------------|-------|
| Depth | 620mm |
| Downturn | 275mm |
| Back Shelf | 140mm |
| Side Edges | 100mm |

Valley2 Trough Section

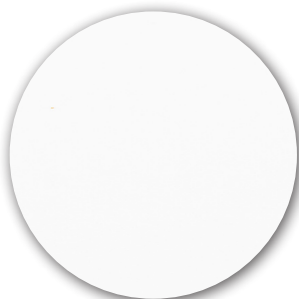

| | |
|------------|-------|
| Depth | 620mm |
| Downturn | 292mm |
| Back Shelf | 148mm |
| Side Edges | 105mm |

DIORE SOLID SURFACE: THE COLOUR PORTFOLIO

Diore Solid Surface is a premium quality Solid Surface and offers endless design opportunities. It is manufactured from natural minerals and strengthened with acrylic polymer resin. Diore solid surface is non-porous, does not stain easily and is easy to keep clean, so is ideal for use in kitchens and more sensitive areas such as dental laboratories, surgeries and commercial counters.

DIORE QUARTZ: THE COLOUR PORTFOLIO

Diore Quartz is a high quality, non porous, engineered stone. Diore Quartz consists of 93% natural materials, primarily quartz and granite. Other components in Diore quartz material are resin and colour pigments that give a consistent colour finish with resistancy to bacteria, staining and heat. Diore is available in a great selection of designer colours.
